INTRODUCTORY

IN presenting our price list for 1922, we again take this opportunity to thank our customers for their liberal support and patronage and to assure them that their orders will receive as careful attention in the future as they have in the past.

We now have 60 acres of land in Elmsford, most of which is planted in Nursery Stock. The most exacting buyers will find with us a fairly complete assortment.

Delivery. The prices herein named are at our Nursery, or F. O. B. the Express and Railroad Station at Elmsford, unless otherwise agreed. Where delivery is made by truck a charge sufficient to cover cost will be made.

Packing. The rise in cost of labor and all materials used in packing compels us to make a nominal charge for labor and materials used.

Guarantee. In accord with all the leading nurseries in the country, we cannot assume responsibility for failure due to unfavorable planting, or growing conditions, and we will in no way be responsible for the results. Our stock is fully up to grade and has been several times transplanted, giving it a good root system.

It will be shipped and handled with the utmost care—after that our responsibility ceases.

Greenhouse Stock. We have on hand a large stock of everything herein listed, but the demand is heavy and we advise early orders before the stock is exhausted. We shall exert ourselves in maintaining our reputation for high class goods, and those who intrust us with their patronage may rest assured that the stock supplied will be the best procurable.

CHRYSANTHEMUMS

We have abridged our list of Chrysanthemums considerably this year. We found the demand for the large-flowered, or so-called "Exhibition Sorts," so spasmodic that every year thousands of young plants had to be thrown out at various times, wasting valuable time and space.

We are confining our list to varieties of tried merit, for which we find an active actual demand.

The list covers the requirements fully for color and seasons of flowering, and we believe that no hardship will result to our customers from this abridgement.

Large-Flowered Varieties

Price: 2¼ inch pots, 20c each; \$2.00 per dozen; \$15.00 per 100.

TREES

Ornamental and Shade

MAPLES

Acer Dasycarpum Pyramidalis (Pyramidal Silver Maple). This makes a beautiful tree of pyramidal form. The leaf is cut, light green and silvery underneath. It is almost as rapid a grower as the Poplar, but much handsomer and longer-lived. For screening purposes we have trees that are branched from the ground up.

8 to 10 feet, \$2.50 each.
 10 to 12 feet, 2-inch calipre, \$3.50 each.
 12 to 14 feet, 2½-inch calipre, \$5.00 each.

Acer Platinoides (Norway Maple). One of the hardiest and most vigorous of all trees for shade and avenue planting. Forms a very compact globular head and is free from disease and natural enemies.

8 to 10 feet, 1-inch calipre, \$2.00 each.
 10 to 12 feet, 1½-inch calipre, \$3.00 each.
 10 to 12 feet, 2-inch calipre, \$4.00 each.
 12 to 14 feet, 2½-inch calipre, \$6.00 each.
 14 to 16 feet, 2½ to 3-inch calipre, \$10.00 each.
 16 to 18 feet, 3 to 3½-inch calipre, \$15.00 each.
 Specimens, \$20.00 to \$25.00.

Acer Plat-Schwedlerii (Schwedler Norway Maple). In every respect similar to the Norway Maple except in the color of the leaves which are bright purple when young and retain a purplish green color all summer. This is the most decorative of all Maples.

16 to 18 feet, 3 to 3½-inch calipre, \$15.00 each.

Acer Saccharinum (Sugar Maple). The well-known native Maple.

6 to 8 feet, \$1.50 each.
 8 to 10 feet, \$2.00 each.
 10 to 12 feet, 1 to 1½-inch calipre, \$3.00 each.
 14 to 16 feet, 2 to 2½-inch calipre, \$5.00 to \$7.50 each.

THE JAPANESE MAPLES

Acer Polymorphum Atropurpureum (Blood-leaved). This is the best of all the Japanese Maples. The foliage is reddish crimson or blood-red in spring and becomes duller as the season advances, but it holds this color all the season. The growth is upright and bushy and makes a beautiful "Lawn Specimen."

3 feet, \$5.00; 3½ feet, \$7.50; 4 feet, \$10.00;
 5 feet, \$12.50; 6 feet, \$15.00; Larger Specimens, \$20.00 to \$25.00.

Acer Poly-Atro Dissectum (Cut-leaved). The foliage is very fine cut and blood-red when young; changing to purplish green in summer. Very dwarf, with graceful weeping form.

2½ feet, \$7.50; 3½ feet, \$10.00; Larger Specimens, \$15.00 to \$25.00.

HORSE-CHESTNUT.

Aesculus Hippocastanum. A well-known tree with abundance of white flowers in May. Makes a fine "Lawn Specimen."

8 to 10 feet, \$2.00.

10 to 12 feet, 2-inch calipre, \$3.50.

12 to 14 feet, 2 to 2½-inch calipre, \$5.00.

12 to 14 feet, 2½ to 3-inch calipre, \$7.50.

14 to 16 feet, 3 to 3½-inch calipre, \$10.00.

Aesculus-Hippo-Alba Flore Pleno. (Double White-flowering Horse-Chestnut). The flowers are produced on large spikes, and are a beautiful sight when in full bloom. It does not produce fruit, and consequently makes a very clean "Lawn Specimen." Fine Specimens, \$7.50 and \$10.00 each.

Aesculus Rubicunda Flore Plena. Makes a smaller tree than the former, with double red flower and darker green leaves.

8 to 10 feet, 2-inch calipre, \$3.50.

10 to 12 feet, 2½ to 3-inch calipre, \$7.50.

12 to 14 feet, 3 to 3½-inch calipre, \$10.00.

BIRCH.

Betula Alba (White Birch). One of our well-known native trees.

CATALPA.

Catalpa Bungei (Umbrella Tree). A most useful tree for formal planting. The stems are 6 to 8 feet high and surmounted with a round, formal top which grows thus naturally without trimming. The leaves are broad and glossy. A very ornamental tree.

6 to 8 feet high, 1½ feet heads, \$3.50 each.

6 to 8 feet high, 2 feet heads, \$5.00 each.

JUDAS TREE, OR RED BUD

Cercis Canadensis. One of the first trees to flower. The branches are covered in early spring with a mass of dark pink or magenta colored flowers, which are succeeded later by pale green leaves.

3 to 4 feet, 75c; 4 to 5 feet, \$1.00; 5 to 6 feet, \$2.00 each.

JAPANESE CHERRY

Cerasus Japonica Pendula (Weeping Cherry). Produces an abundance of beautiful pink flowers in early spring, before the leaves appear. The branches are slender and droop to the ground like a large umbrella.

4 to 5 feet stem, \$3.50 to \$5.00 each.

DOGWOOD

Cornus Florida (White Dogwood). A fine native tree of medium growth, with large white flowers in early spring, followed by an abundance of red berries in the fall. The foliage in the fall is also very brilliant.

4 to 5 feet, \$1.50; 6 feet, \$2.50; 7 feet, \$3.50; 8 feet, \$5.00; Larger Specimens, \$7.50 to \$10.00 each.

Cornus Florida Rubra (Red Flowered Dogwood).

Like the preceding, except that the flowers are deep pink. This variety is very scarce.

3 to 4 feet, \$2.50 each; 4 to 5 feet, \$3.50 each; 5 to 6 feet, \$5.00 to \$7.50 each; 7 to 8 feet, \$10.00 each.

HAWTHORNE.

Crataegus Oxycantha. The celebrated hedge plant of England; also useful for single specimens.

4 to 5 feet, \$1.00; 5 to 6 feet, \$1.50; Larger Specimens, \$2.50 to \$3.50 each.

Crataegus Oxy Coccinea Fl. Pl. (Paul's Double Scarlet Thorn.) The best of the "Thorn" family; flowers are double and bright red.

4 to 5 feet, \$1.00; 5 to 6 feet, \$1.50; 6 to 8 feet, \$2.50.

BEECH

Fagus Sylvatica Purpurea (Purple Beech). The foliage is dark purple and the tree of slow growth.

4 to 5 feet, \$3.50; 6 to 7 feet, \$7.50; 8 to 10 feet, \$10.00.

MAIDEN HAIR TREE

Ginko Biloba. A handsome tree of medium size; pyramidal in growth with foliage resembling the maiden hair fern.

5 to 6 feet, \$2.50; 8 to 10 feet, \$3.50; 10 to 12 feet, \$5.00.

THE MAGNOLIAS

Magnolia Soulangeana. Flowers white, tinged pink. Large foliage. One of the hardiest.

5 feet, \$7.50; 6 feet, \$10.00; 10 feet, \$25.00 to \$50.00.

Magnolia Stellata (The Star Magnolia). A dwarf growing variety which gives an abundance of star-like, delicately fragrant white flowers in early spring.

2½ to 3 feet, \$5.00 to \$7.50.

MULBERRY

Morus Tartarica Pendula (Teas Weeping Mulberry).

One of the prettiest of our dwarf weeping trees. Forms a perfect umbrella-shaped head, the branches touching the ground.

Two Year Heads, \$2.50; Three Year Heads, \$3.50 to \$5.00 each.

POPLARS

Populus Fastigiata (Lombardy Poplars). A fast pyramidal-growing tree that can be planted close together for an immediate screen.

Insecticides and Fungicides

ALPHINE

Effective against all soft-bodied and plant sucking insects, such as green, black, and white fly; red spider, thrips, mealy bug, brown and white scale, currant and cabbage worm, etc. Used as a spray or wash, as directed on each can. A recognized standard. Quart, \$1.00; gallon, \$3.00.

FUNGINE

An infallible remedy for mildew, rust, wilt, bench rot and other blights. A sulphur composition which, diluted with water, contains no sediment and does not stain the foliage. One gallon makes fifty gallons of spraying materials. Quart, \$1.00; gallon, \$3.00.

Grass Seed

Elmsford Evergreen Lawn Grass Mixture.—We have made an extensive study of grasses, and have here combined in one mixture several of the very best kinds in such proportions as will give the best results. Some of the kind are naturally early and give the lawn a bright color as soon as Spring opens up. Others will stand the heat and drought of Summer, and others again will keep growing until late in the Fall. We consider our "Elmsford Evergreen Mixture" to be as good as any on the market to-day. For new lawns, sow 85 to 100 pounds to the acre. Per bushel (20 pounds), \$7.50.

The Elmsford Shady Spot Grass Mixture.—A combination of grasses that naturally grow in shady places, of guaranteed purity and free from weeds. Per bushel, \$8.50.

Permanent Pasture Mixture.—A combination of various grasses recognized for good pasturing qualities—a combination that will keep growing from early Spring until late in the Fall. Sow 50 to 75 pounds per acre. Bushel (14 pounds), \$5.00.

Hay Mixture.—A superior mixture, suitable for hay and permanent pasture, of guaranteed purity. Sow 40 pounds per acre. Per bushel (14 pounds), \$5.00.

Landscape Department

The Landscape Department of the Nursery business is undoubtedly the most important branch of it. We are well equipped to undertake the development of either large or small Estates.

The individual members of our firm have all had a life experience in this work and are well qualified to give practical advice in the development of new places, or the renovation and care of old ones. We were the successful contractors recently for the development of the landscape features of the "Kensico Dam" at Valhalla, N. Y., for the "Board of Water Supply," of New York City. In spite of adverse labor conditions and freight tie-ups, we finished ahead of the specified contract time, to the entire satisfaction of the City Engineers.

We have been the successful bidders for several years, for supplying the various materials for the beautifying of the extensive grounds of the Kensico Cemetery at Kensico, N. Y.—The most up-to-date Cemetery in the environments of New York. We have also developed and renovated a number of new and old places recently. The names of the owners will be cheerfully given upon request. We have a complete equipment for moving large trees successfully.

Our advice will be cheerfully given at any time. We will also prepare plans and estimates for Grading, Road Making, Preparation and Seeding down of Lawns, and Supplying and Planting of Trees, shrubs, etc.

We have made an extensive study of Rockery construction and are well equipped to undertake any work of this nature. Examples of work already done can be seen at any time.

Drop us a line and we will be on the job, or call and see us; we are always accessible.
